**AMERICAN FOREIGN POLICY AND THE COLD WAR**

**By HERBERT APTHEKER**

"Every major issue and event of the Cold War—and every issue that persists today—Cuba, West Berlin, South Vietnam, atomic testing, disarmament, etc.—is dealt with in this book. But the mere listing of subjects cannot convey the marshalling of facts the powerful polemics, the prodigious reading, the clear reasoning, the profound humanism and, yes, the passion—the heat and the light—which permeate this most valuable contribution to the needs of our time. . . . *American Foreign Policy and the Cold War* represents a triumph of Marxist scholarship and a magnificent tool for those who seek to build a world at peace."—Jack Stachel, in *Political Affairs*.
